Features :

Map with a search bar so that a school can be searched

Once searched, the operator can then click on the school, and the map will have the two or three closest thrift stores

Once they click on a thrift store, there will be sections for

- price
- hours
- main categories of clothing
- fitting rooms
- amount of women's and mens clothing
- review for the user to fil out on each thrift store

Use whatever you want to deploy, idk
